

### Note to Coordinator:

Lessons 58 through 60 are review lessons for the entire year.

In Lesson 58 we will review Lessons 1 through 22. We will also present the format for the portfolio. The portfolio will serve as a student assessment tool.

A portfolio can be done in several different ways. We have chosen an “álbum” format. The “álbum” should include pictures to reflect the student’s understanding of the vocabulary. Here are three possible sources for the pictures:

- 1) photos of the students
- 2) magazine cut-outs
- 3) original drawings

We are enclosing here some portfolio examples that students could make for this review section.

In subsequent classes, we will continue the “álbum,” incorporating the items reviewed for those lessons.
